

LAND CRUISER

UNRIVALLED STRENGTH. LEGENDARY CHARACTER

With an off-road heritage spanning more than 65 years, the Land Cruiser remains unique in its ability to combine outstanding quality, durability and reliability with unrivalled off-road performance and ever greater levels of luxury, prestige, and on-road comfort.

Model shown on this page and on front cover is Invincible.

BORN AN ICON. FOREVER UNSTOPPABLE

Ever since the first generation climbed Mount Fuji more than 65 years ago, the Land Cruiser has been unstoppable. It continues to excite customers all over the world with its capability and its determination to get you anywhere and back safely. Today, the new Land Cruiser is just as relentless – with more advanced on- and off-road technologies, more safety features and more powerful performance to tackle any terrain.

1951
BJ series is born – first vehicle to be driven as far as 2,500 metres up Mount Fuji.

1966
The Land Cruiser Station Wagon series – offers a more sophisticated version of the 4x4.

1985
The first Light Duty series – combines uncompromised off-road strengths and comfort.

1996
90 series – now with a strong chassis, independent front suspension and a higher performance engine.

2002
120 series – first full model change in 6 years to enhance drivability both on- and off-road.

Model shown is Active grade.

2009
150 series is born – combines outstanding durability with unrivalled off-road performance.

2017
150 series – equipped with more advanced on- and off-road technologies as well as safety features.

Model shown is Invincible.

STRENGTH AND PURPOSE IN EVERY LINE

The new Land Cruiser further enhances its reputation with more modern and robust exterior styling. Every line serves a clear purpose: starting with the bonnet which has been shaped to improve downward visibility at the centre; the headlights and grille cooling openings positioned higher to maximise both protection and wading depth; while bi-tone, dark grey machined-face 19" alloy wheels create a more dynamic profile. The rear now includes a redesigned light cluster with an LED brake light.

COMFORT THROUGH CRAFTSMANSHIP

Model shown is Invincible.

The Land Cruiser's unique mix of functionality, craftsmanship and attention to detail ensures the most rewarding journey on any route. On-board comfort has been enhanced through the adoption of front-seat ventilation*, a rear passenger adjustable ventilation* system, triple-zone automatic air conditioning* and reverse-tilting door mirrors§.

2.

2. CENTRE CONSOLE
The centre console features the Toyota Touch® 2 with Go◊ multimedia system, and more ergonomic, functionally grouped switches that are separated into specific zones. The drivetrain-, driving- and comfort-related switchgear are easy to use in all on- and off-road conditions.

3. REAR PASSENGER AIR CONDITIONING CONTROL PANEL
The rear passengers can adjust the temperature to their individual needs to experience optimal comfort at all times.

* Standard on Invincible only.
§ Standard on Invincible only.
◊ Standard on Invincible grades. Optional on Active grade.
** Not available on 3-door models.

1.

1. TFT SCREEN WITH TYRE PRESSURE MONITORING SYSTEM (TPMS)
The 4.2" TFT multi-information screen in the combi-meter provides drivers with comprehensive vehicle and infotainment data including safety features such as TPMS. TPMS allows you to keep a check on the pressure of each individual tyre (including a full-size spare wheel**) via the display. Should the pressure be too low, a warning symbol lights up.

3.

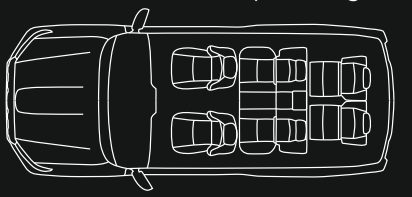

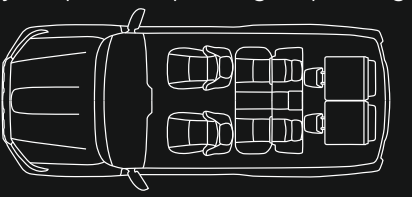

AS VERSATILE AS YOUR AMBITION

Whether you're exploring new territory, or negotiating the urban jungle – the Land Cruiser has the spacious cabin and the versatility to match your needs. Choose between 2-, 5- or 7-seat options, for a vehicle that adapts to changing conditions and individual requirements. Loading is easy too, thanks to features like the rear glass hatch* window that can be operated with one hand.

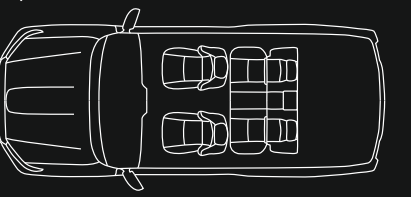

Land Cruiser is available with seating for up to 7 across 6 different configurations, providing a variety of options depending on passenger requirements.

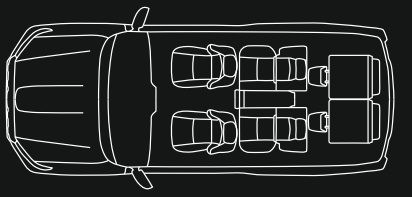

7-seat option

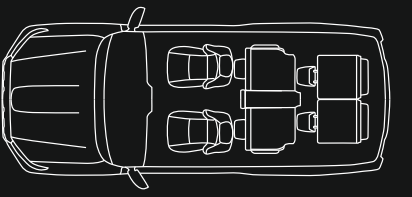

5-seat option
3rd row centre seat folded down.

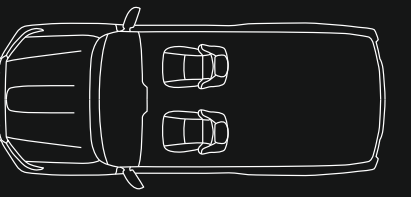

5-seat option

4-seat option
2nd row centre seat and 3rd row seats folded down.

2-seat option
2nd and 3rd row seating folded down.

LCV seat configuration
Front seats only.

* 5-door only.

Model shown is Invincible.

IN CONTROL, WHATEVER LIES AHEAD

Towing your equipment, avoiding potholes, battling rain, snow and ice – no other SUV can offer the new Land Cruiser's unique combination of on-road dynamics and off-road performance. It is equipped with a Drive Mode Select System*, an electronically modulated Kinetic Dynamic Suspension System (KDSS), which optimises the effect of the front and rear stabilisers for enhanced on-road performance.

KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS) ON-ROAD[§0]
KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort by optimising the effect of the front and rear stabilisers.

TRAILER SWAY CONTROL (TSC)**
TSC suppresses any trailer sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway. The slip indicator bleeps when TSC is activated, and to warn drivers behind, the brake lights are illuminated.

TORSEN REAR LIMITED SLIP DIFFERENTIAL (LSD) LOCK[◊]
The new Torsen Rear LSD lock helps improve stability and traction on rough roads and slippery surfaces. When cornering, it limits the torque difference between the left and right wheels generated by engine braking, thereby achieving greater vehicle stability.

* Standard on Invincible only (5 mode). [§] A full description is available on pages 50/51.
[◊] Standard on Invincible only. ** Not available on SWB or 3-door.

READY TO CONQUER THE TOUGHEST TERRAIN

Crawling through a river, climbing hills, descending a rocky track – the Land Cruiser's ability to overcome the roughest terrain and bring you back safely is legendary. The Multi-Terrain Monitor (MTM)* with Under-Vehicle Terrain View gives you an instant overview of your surroundings, including Panoramic View. There is also a choice of three rear differential variants including the new Torsen Rear Limited Slip Differential (LSD)* lock for enhanced stability and grip. The Multi-Terrain Select system (MTS)* in combination with Crawl Control automatically regulates vehicle settings to suit the conditions for maximum control.

MULTI-TERRAIN MONITOR (MTM)* WITH UNDER-VEHICLE TERRAIN VIEW§
MTM is designed to give you an instant overview of your surroundings, helping you stay on your intended course and avoid potential danger. Under-Vehicle Terrain View captures an image of the area in front of the vehicle and combines it with the current tyre position, creating a realistic view of what lies underneath.

PANORAMIC VIEW MONITOR*§
To help you spot obstacles and make off-road driving easy, the Panoramic View Monitor and the Steering Angle Display create a near-360 ° 3D view of the vehicle's surroundings.

MULTI-TERRAIN SELECT (MTS)* IN COMBINATION WITH CRAWL CONTROL*§
Tackle any scenario with a choice of five terrain modes. MTS automatically regulates the amount of wheel spin to suit the off-road conditions and even works in conjunction with Crawl Control.

REAR DIFFERENTIAL LOCK*
The touch of a button allows you to temporarily lock the differential forcing both wheels to spin at the same speed, helping the wheel regain full control.

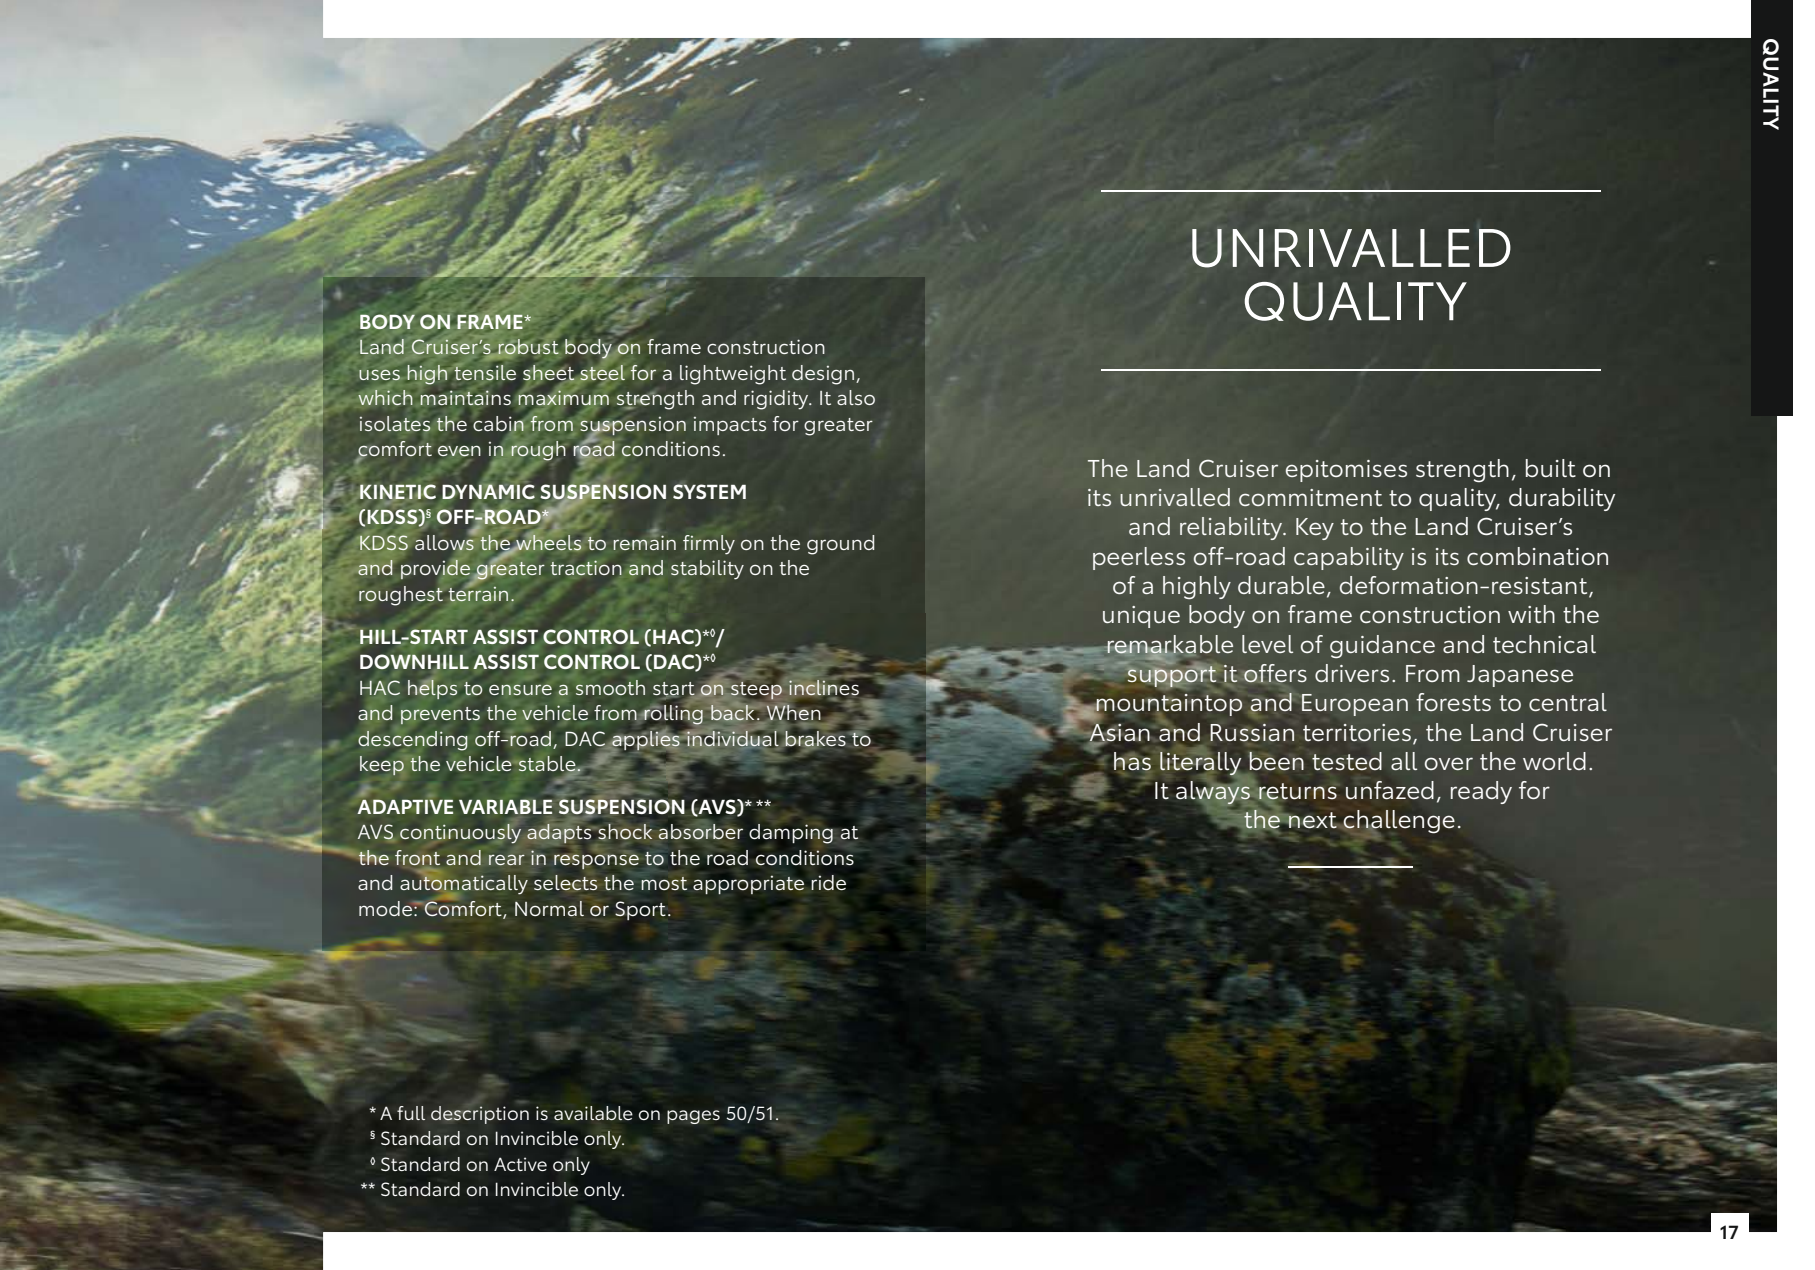

ACTIVE TRACTION CONTROL (A-TRC)[§◊]
A-TRC helps to overcome wheel spin and stabilise the vehicle when accelerating on slippery roads and in muddy conditions.

Model shown is Invincible.

* Standard on Invincible only.
§ A full description is available on pages 50/51.
◊ Standard on Utility and Active grades.

Model shown is Invincible.

UNRIVALLED QUALITY

The Land Cruiser epitomises strength, built on its unrivalled commitment to quality, durability and reliability. Key to the Land Cruiser's peerless off-road capability is its combination of a highly durable, deformation-resistant, unique body on frame construction with the remarkable level of guidance and technical support it offers drivers. From Japanese mountaintop and European forests to central Asian and Russian territories, the Land Cruiser has literally been tested all over the world. It always returns unfazed, ready for the next challenge.

BODY ON FRAME*
Land Cruiser's robust body on frame construction uses high tensile sheet steel for a lightweight design, which maintains maximum strength and rigidity. It also isolates the cabin from suspension impacts for greater comfort even in rough road conditions.

KINETIC DYNAMIC SUSPENSION SYSTEM (KDSS)[§] OFF-ROAD*
KDSS allows the wheels to remain firmly on the ground and provide greater traction and stability on the roughest terrain.

HILL-START ASSIST CONTROL (HAC)*[◊]/ DOWNHILL ASSIST CONTROL (DAC)*[◊]
HAC helps to ensure a smooth start on steep inclines and prevents the vehicle from rolling back. When descending off-road, DAC applies individual brakes to keep the vehicle stable.

ADAPTIVE VARIABLE SUSPENSION (AVS)* **
AVS continuously adapts shock absorber damping at the front and rear in response to the road conditions and automatically selects the most appropriate ride mode: Comfort, Normal or Sport.

* A full description is available on pages 50/51.

[◊] Standard on Active only
** Standard on Invincible only.

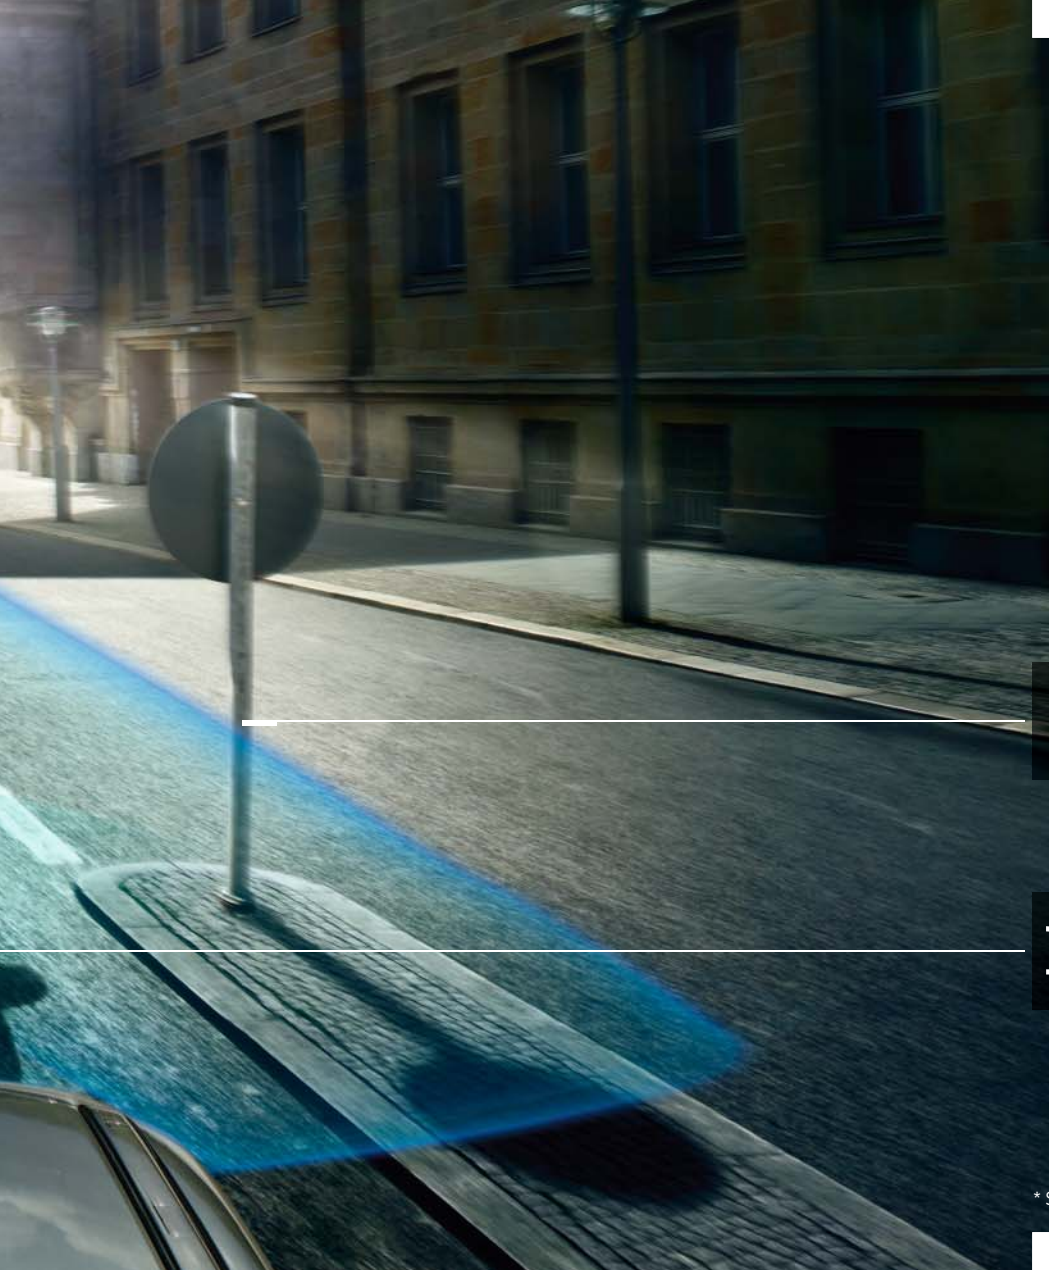

OFF-ROAD OR ON-ROAD, ALWAYS PROTECTED

AUTOMATIC HIGH BEAM
Toyota Safety Sense's Automatic High Beam is designed to optimise visibility during night driving for all road users. A camera detects the lights of oncoming vehicles and leading traffic whilst also monitoring the brightness of streetlights. It switches automatically between high and low beam for safer night-time driving.

INTELLIGENT ADAPTIVE CRUISE CONTROL
Toyota Safety Sense's Adaptive Cruise Control keeps a minimum preset distance from the vehicle in front. If this distance falls, the system reduces the speed. If the distance increases again, it will gradually accelerate until the vehicle returns to your chosen cruising speed.

LANE DEPARTURE ALERT
Using a camera to detect the lane markings in the road ahead, Toyota Safety Sense's Lane Departure Alert will give the driver audible and visual warnings if the vehicle starts to deviate from its lane without the turn indicator being applied – the driver can then take corrective action.

Model shown is Invincible.

The Land Cruiser is fitted with Toyota Safety Sense 2*, a set of active safety technologies designed to help prevent or mitigate collisions across a wide range of traffic situations. It includes a Pre-Collision System (PCS) with Pedestrian and Cyclist Detection, Intelligent Adaptive Cruise Control (ACC), Lane Departure Alert (LDA), Automatic High Beam (AHB) and Road Sign Assist (RSA). Further safety technologies include a Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA).

ROAD SIGN ASSIST
Toyota Safety Sense's Road Sign Assist monitors the road signs ahead, displaying useful information such as the current speed limit or overtaking restrictions in clear view on the new colour TFT cockpit display. The system also provides a visual and acoustic warning if you are not following the road sign indication.

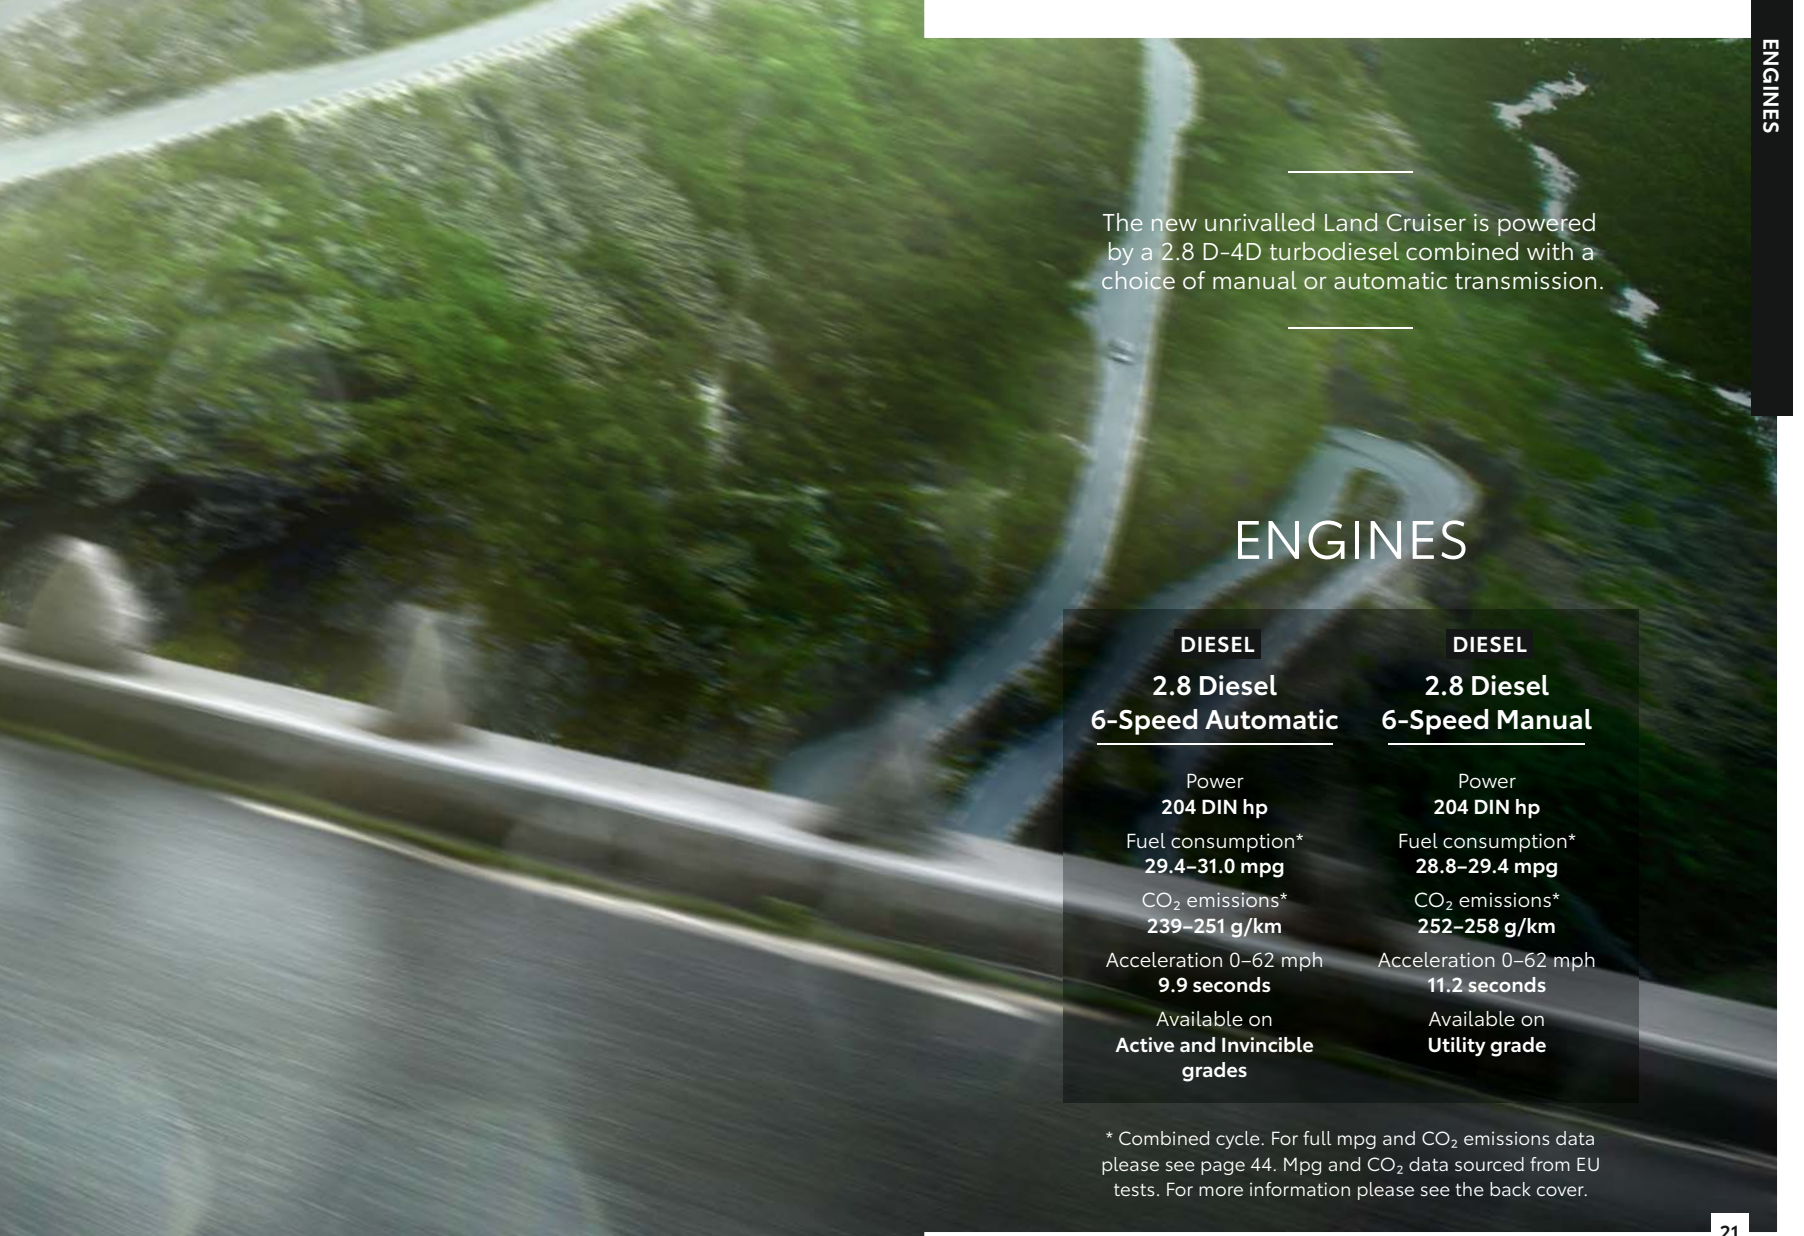

PRE-COLLISION SYSTEM WITH CYCLIST DETECTION, DAY & NIGHTIME PEDESTRIAN DETECTION
Toyota Safety Sense's Pre-Collision System with Pedestrian Detection combines a millimetre-wave radar with a camera to detect other vehicles in the road ahead. When the possibility of a collision is detected the driver is alerted with audio and visual warnings and brake assistance is activated. If the driver fails to brake in time the brakes automatically engage to prevent or mitigate a collision. In addition to vehicle detection, early detection of cyclists & pedestrians is also made possible.

* Standard on Invincible only.

THE SOURCE OF STRENGTH

Model shown is Invincible.

The new unrivalled Land Cruiser is powered by a 2.8 D-4D turbodiesel combined with a choice of manual or automatic transmission.

LIGHT COMMERCIAL VEHICLES

UTILITY COMMERCIAL

Main features

— Available in 4 colours
— 17" steel wheels with full size spare (excluding 3-door)
— Smart Entry & Push-button start
— Cruise Control
— Manual air conditioning
— Front and rear LED daytime running lights, front fog lights
— Multi-reflector halogen headlights
— Heated, power-adjustable door mirrors
— Manual height-adjustable driver's seat with lumbar support
— Reclining and sliding front seats
— Colour 4.2" TFT display
— Active Traction Control (A-TRC)
— Tyre Pressure Warning System (TPWS)
— Trailer Sway Control (TSC) (LWB only)
— Black roof rails
— DAB Radio with Bluetooth®, six speakers, AUX & USB

Optional features

— Essential Protection Pack (LWB only): Rear bumper protection plate (chrome) & rubber floor mats
— Tow bars

ACTIVE COMMERCIAL

Main features
(additional to Utility grade)
— 17" silver alloy wheels (6-spoke)
— 8" touchscreen with Toyota Touch® 2 multimedia system with Smartphone integration incl Apple CarPlay™, Android Auto™ & 9 speakers
— Dual zone air-conditioning
— Reversing camera
— Rear parking sensors
— Leather steering wheel, gearshift & handbrake

Optional features
— Toyota Touch® 2 with Go navigation
— Essential Protection Pack (LWB only): rear bumper protection plate (chrome), rubber floor mats
— Tow bars

INTERIOR

The New Land Cruiser Commercial's interior boasts a spacious loading area with a rubber-lined rear floor tray, blanked rear windows and a mesh bulkhead.

The loading space also has four lashing points to provide added functionality to the vehicle.

ACTIVE GRADE

Main features
(additional to Utility grade)

— Choose between 5 seat & 7 seat option
— 17" silver alloy wheels (6-spoke)
— 8" Toyota Touch® 2 multimedia system with Smartphone integration incl Apple CarPlay™, Android Auto™ & 9 speakers.
— Reversing camera
— Rear parking sensors
— Cruise Control
— Smart Entry & Push-button start
— Automatic Multi-reflector headlights
— Dual-zone automatic air conditioning
— Manual height-adjustable driver seat with lumbar support
— Manual reclining & sliding front seats
— 4" colour multi-information display
— Black roof rails
— Power-retractable heated door mirrors
— Side steps

Optional features

— Toyota Touch® 2 with Go navigation
— Essential Protection Pack (5-door only): Rear bumper protection plate (chrome) & boot liner
— Tow bars
— Nextbase front facing dash camera
— Nextbase front and rear facing dash cameras

INVINCIBLE GRADE

Main features
(additional to Active grade)

— 19" bi-tone dark grey & machined-face alloy wheels (6-double-spoke)
— Toyota Safety Sense 2 (Pre-Collision System with Pedestrian Detection (Day & Night), Daytime Cyclist Detection, Intelligent Adaptive Cruise Control (ACC), Lane departure Alert (LDA), Automatic High Beam (AHB) and Road Sign Assist (RSA))
— Toyota Touch® 2 with Go navigation
— Rear Cross Traffic Alert (RCTA), Blind Spot Monitor (BSM) & Panoramic View Monitor (PVM)
— Multi-Terrain Monitor (MTM) with under-vehicle view monitor & Multi-terrain Select (MTS)
— Crawl Control, Body angle display, Off-road turn assist & 5-mode driver select system
— Kinetic Dynamic Suspension System (KDSS) & Rear Limited Slip Differential (LSD)
— JBL® Premium Sound System with 14 speakers
— Leather seats - available in 3 colour choices
— Electric, heated & air ventilated front seats
— Power-height-adjustable driver seat with lumbar support
— Front parking sensors
— Triple-zone air conditioning
— Reverse tilting door mirrors with puddle lights
— Heated, power-adjustable steering wheel with memory function
— Auto wipers
— Rear passenger adjustable air conditioning, lights & 12V sockets.

—

When black leather is taken you also receive tinted chrome on the rear lights, front fog lights, front grille & door mirrors.

Optional features

— Sunroof
— 19" gloss black alloy wheels
— Style Pack (19" gloss black alloy wheels, chrome mirror covers, rear chrome trim & rear underrun)
— Essential Protection Pack: Rear bumper protection plate (chrome) & boot liner
— Tow bars
— Nextbase front facing dash camera
— Nextbase front and rear facing dash cameras

OPTIONS

Land Cruiser Passenger Car – rear bumper protection plate (chrome) and boot liner

Land Cruiser Commercial – rear bumper protection plate (chrome) and rubber floor mats

ESSENTIAL PROTECTION PACK

The Protection Pack helps keep your Toyota Land Cruiser in showroom condition. The rear bumper protection plate is designed to guard the rear bumper paintwork against scratching when sliding heavy or awkward loads into the boot, while the boot liner prevents damage to the boot carpet. These are combined with side mouldings with a chromed insert which provide your vehicle with an extra layer of protection to help guard the side panels against minor bumps and scrapes.

BOOT LINER
Made of rugged plastic and with raised edges to guard the carpet against mud and dirt.

REAR BUMPER PROTECTION PLATE
With a brushed stainless steel finish for a great look and tough paintwork protection.

RUBBER FLOOR MATS
Made from high quality rubber, this set of mats protects your vehicle from dirt, mud and water and can be removed easily for cleaning.

* Not compatible with rear underrun included in the Style pack. An alternative design solution for the bumper area is available, eliminating the need for a towing hitch cover.
§ Available separately.

TOWING PACK*

Order your Towing Pack with your new car and receive a fully tested and approved towing solution at a very competitive price. Select your choice of towing hitch and either 7- or 13-pin wiring harness.

Flanged

Detachable

Fixed

Toyota towing hitches are available with a flanged, fixed or detachable hook. Each provides a strong towing capability and will support the Toyota rear-mounted bicycle holder.

— 3000 kg towing capacity. The towing hitch is designed for your car's maximum towing capacity.

— Supplied with a protective tow-ball cap bearing the Toyota logo.

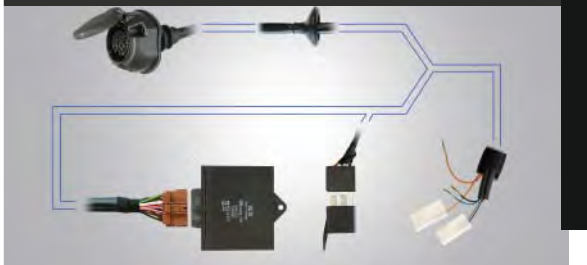

— All Toyota towing hitches support the 2- and 3-bicycle version of the rear bicycle holder.

— The detachable towing hitch has a smart plastic cover[§] to place over the base when the hook is removed.

— The detachable towing hitch hook is attached or removed by a turning knob that also features a security lock.

All three towing hitches are available with either 7-pin or 13-pin wiring.

Towing hitch wiring harness

Individually designed for your Land Cruiser to seamlessly integrate its lights and signals with those on a towed trailer or rear bicycle holder.

— Independent circuitry and a fused module eliminate the risk of overloading your car's electrical system.

— Fused module prevents a fault in the trailer's circuitry affecting your car's systems (your car's indicators will still work if those on the trailer fail).

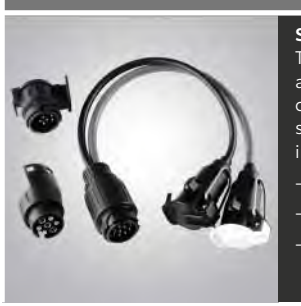

— Cable route safely avoids moving car parts, heat, irregular surfaces and metal edges.

— No loose cables that could snare road obstacles or interfere when loading/unloading the boot.

— Strategic cable protection guards against accidental damage and the consequences of electrical shorting.

— Available with a 7- or 13-pin socket.

— Incorporates special water-proofing features for off-road and recreational driving.

Socket adapters[§]
Toyota adapters provide a durable connection between different types of plug sockets. They are available in three versions:

— 7-pin (car) to 13-pin (trailer).

— 13-pin (car) to 7-pin (trailer).

— 13-pin (car) to 12N-12S double socket (trailer).

INDIVIDUAL ACCESSORIES

Whether driving through town or country, on long runs or short trips, with Toyota accessories you have options to add extra care for your car and increased comfort for you and your passengers.

Floor mats
Protect your car's carpets with your choice of Toyota textile (shown) or rubber floor mats.

Crossbars
The crossbars lock onto your roof rails and form a secure base for a wide range of carrying attachments.

Side mouldings with chrome insert
Protection for your car's side panels against minor scrapes combined with a stylish chrome inlay. Available in black or painted to match your car.

Rear lower boot trim
The lower boot trim helps prevent paintwork scratches when sliding luggage in or out of the boot.

Mirror covers
Carefully shaped for a secure fit around the indicator lights and with a deep chrome finish to emphasise your car's sculptural mirror design.

EXTERNAL

1. Exhaust pipe finisher
The chromed stainless steel exhaust pipe finisher visually converts a mechanical necessity into an eye-catching design detail.

2. Bonnet deflector
Custom-designed to match the aerodynamic contours of your vehicle to help guard the bonnet against bumps and scrapes.

3. Wind deflectors
Aerodynamically shaped to reduce in-car wind noise and buffeting when driving with open windows.

4. Door handle protection film
Virtually invisible, yet providing tough protection against scratching by gloves, rings and keys around the door handles.

TOURING

Ski boxes

Thule Motion 800 – gloss black (also in gloss silver)

Thule Pacific 700 – silver grey

For those big snow holidays
Thule ski boxes have been custom-designed to exactly the right length, shape and capacity for securely carrying all your winter sports accessories.

Thule Motion 800
Dimensions: 205 cm L x 84 cm W x 45 cm H
Internal volume: 460 litres
Maximum content weight: 75 kg*
Holds: 5–7 pairs of skis, 4–5 snowboards
Weight: 21 kg

Thule Pacific 700
Dimensions: 232 cm L x 70 cm W x 40 cm H
Internal volume: 420 litres
Maximum content weight: 50 kg*
Holds: 6 pairs of skis, 4 snowboards
Weight: 15 kg

Features
— Opens from both sides for easy loading and unloading.
— High security multi-point central locking system.
— Grip-friendly key cannot be removed until all the locking points are closed.
— Fits the Toyota roof rack and Toyota crossbars on roof rails.
— Internal straps for securing the box contents.
— Made of colour-fast UV-resistant ABS plastic.

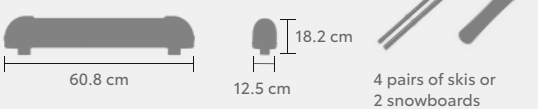

Ski & snowboard holders

Large ski and snowboard holder

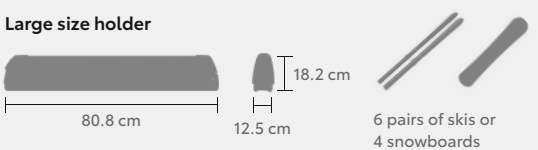

Simply load and go
The holders install easily and lock securely so you can quickly load skis and snowboards whenever the inspiration takes you. They fit onto the Toyota roof rack and Toyota crossbars on roof rails.

Medium size holder

Large size holder

Features
— Weight: 3.2 kg medium, 4.2 kg large.
— Skis secured between soft rubber for grip and to prevent damage.
— Central locking system for maximum security.
— Push release for easy opening with gloved hands.
— Large holder slides to the car side for easy loading and unloading.

Luggage box

Thule Pacific 200 – silver grey

Just right for holidays
For jackets and dresses, shorts, shoes and playthings: a Thule luggage box is perfect to carry all you need for those big holidays and weekends away.

Thule Pacific 200
Dimensions: 175 cm L x 82 cm W x 45 cm H
Internal volume: 410 litres
Maximum content weight: 50 kg*
Weight: 14 kg

Features
— Opens from both sides for convenient loading and unloading.
— High security multi-point central locking system.
— Grip-friendly key cannot be removed until all the locking points are closed.
— Fits the Toyota roof rack and Toyota crossbars on roof rails.
— Internal straps for securing the box contents.
— Made of colour-fast UV-resistant ABS plastic.

* Maximum content weight is based on the Land Cruiser's maximum roof load capacity.

TOURING

Bicycle holders

Rear-mounted multi-capacity
For secure transportation and easy loading and unloading. The clamp-mounted holder is a universal solution that attaches to all genuine Toyota towing hitches.

Quick and easy roof mounting
The lockable lightweight design attaches to the Toyota roof rack and Toyota crossbars on roof rails and has secure wheel and frame grips. Conveniently, the frame grip can be adjusted at roof height.

Key product highlights:	**Clamp-mounted rear bike holder**		
Load capacity (bikes)	2	3	1

	One key system compatible		
Fulfils city crash norm	Yes		Yes
Miscellaneous	Maximum weight per bike: 20 kg. Fits bikes with disc brakes		UV-resistant plastic. Fits wheel width up to 5.6 cm

INTERIOR

Everyone has a different way of living with their car. Toyota accessories respond to those differences by offering extra touches of practicality. Each accessory is designed for a special purpose and to reflect individual needs.

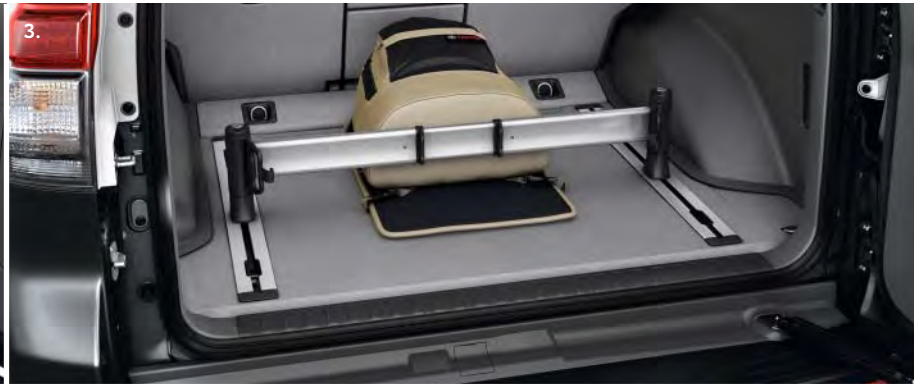

1. Moving load floor
The easy way to load heavy cargoes. It slots into your car's pre-fitted floor rails so you can load your cargo at the boot edge and then glide it effortlessly into the boot space.

2. Horizontal cargo net
Clips onto your car's pre-fitted hooks to prevent bags and briefcases sliding around in the boot.

3. Cargo manager
Slots into your car's pre-fitted floor rails and has both a flexible telescopic aluminium bar and a textile tensioning belt to hold cargo securely in the boot.

4. Vertical cargo net
The net clips onto hooks in the boot and has pockets for neatly storing all sorts of odds and ends.

Boot guard – half
The durable mesh design prevents stacked luggage tumbling into the passenger area and is also perfect as a dog guard to stop your pet climbing over the back seats.

Boot guard – full
A floor-to-ceiling mesh design that protects the rear of your seats and prevents stacked luggage falling, or your dog jumping into the passenger area.

Boot divider
Combines with the full boot guard to maximise carrying flexibility. It divides the boot space for two dogs, a dog and luggage, or different types of luggage.

GLOSSARY

Discover more about Land Cruiser technology.

Panoramic View Monitor
Panoramic View Monitor helps to make parking and manoeuvring safer and easier. It combines images from four cameras to create a near-360° 3D view of the surroundings. Displayed clearly on the Toyota Touch® 2 multimedia system screen, the driver can choose from two viewing modes: Moving View and See-through View to check for any hidden obstacles or dangers.

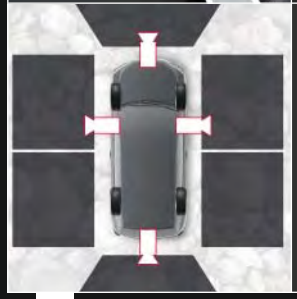

All Wheel Drive (AWD)
In normal road conditions, drive is through the front wheels, but on loose or slippery surfaces the system automatically and continuously distributes the torque between front and rear wheels. This optimises traction and driving stability and also maximises fuel economy.

Multi-Terrain Select (MTS)
Tackle any situation with a choice of four terrain modes – 'Rock', 'Mogul', 'Loose rock' or 'Mud & sand'. The vehicle's throttle, braking and traction control systems are automatically modified to suit the off-road conditions, providing maximum traction and control.

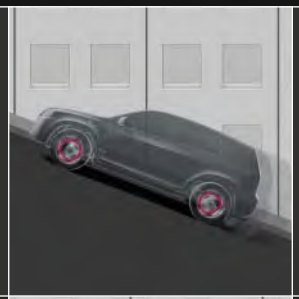

Body on Frame
High tensile sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.

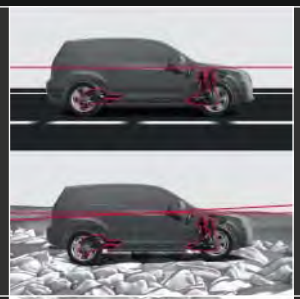

Multi-Terrain Monitor (MTM)
MTM allows you to see the road around you, helping you stay on your intended course and avoid potential danger. The screen displays a choice of six live images from four exterior cameras showing your surroundings either side of the car, behind and in front of you, as well as underneath your vehicle. By simply pressing the multi-function switch on the steering wheel, you'll have an instant understanding of your surroundings.

Kinetic Dynamic Suspension System (KDSS)
KDSS is an electronically modulated hydraulic suspension system. On-road, highly responsive suspension with conventional anti-roll bars provides unrivalled steering agility and ride comfort. Drive off-road and the wheels remain firmly on the ground and provide greater traction and stability on the roughest terrain.

Hill-start Assist Control (HAC)
HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping as long as the transmission shift lever is in any forward gear position.

Adaptive Variable Suspension (AVS)
AVS dampens all four shock absorbers independently. This provides you with outstanding ride comfort, handling and stability. What's more, you can choose from Comfort, Normal and Sport modes to suit your preferences and road conditions.

Downhill Assist Control (DAC)
When descending off-road, DAC applies individual brakes to keep the vehicle stable and maintain its speed between 3 and 4 km/h. DAC works in forward or reverse, and when activated it requires no pedal input from the driver.

Crawl Control
Crawl Control maintains constant and stable low-speed off-road progress. The driver doesn't have to worry about controlling the throttle and brake, and can instead concentrate on steering.

Active Traction Control (A-TRC)
Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.

Toyota Safety Sense 2
Toyota Safety Sense adds advanced active safety systems for an even safer and more relaxed drive. Five active technologies – Pre-Collision System* with Pedestrian and Cyclist Detection, Lane Departure Alert, Automatic High Beam, Road Sign Assist and Intelligent Adaptive Cruise Control are at the heart of Toyota Safety Sense.

* Technical name: Pre-Crash Safety System.

OWNING YOUR LAND CRUISER

Servicing your Toyota
Toyota Service Pricing means you will be sure to know the cost of your service up front. Expertly trained technicians using only genuine Toyota parts will carry out your service at one of over 200 Authorised Toyota Service Centres. The technicians will advise you on the correct service for your car based on the car's age, mileage and service history.

For more information visit toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance

Service Plans
Inflation-proof pricing with a monthly or one-off payment plan means one less thing to worry about. With Toyota Service Plans the price you're quoted is guaranteed for the duration of your plan. The service, parts and labour are all paid for either in monthly instalments or as a one-off payment at the beginning of your plan.

For more information visit toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance

Toyota Price Repairs
We offer transparent prices on a number of repair items for your Toyota giving you peace of mind when it comes to managing costs. Also don't forget we only use genuine Toyota parts, all of which come with at least 12 months' warranty (some even offer unlimited mileage warranties); and your car will always be dealt with by a trained Toyota technician.

For more information visit toyota.co.uk/owners/parts-accessories/parts

MyT
Whether you're a long-term owner or have recently taken delivery of a new Toyota, there are lots of reasons to join **MyT**. Packed with time-saving and convenient features, **MyT** ensures everything you need to manage your vehicle ownership is in one place. You'll also gain access to **My Rewards** where you can enjoy great offers and discounts from big brands on everything from family days out to pampering as well as everyday deals.

For more information visit toyota.co.uk/mytoyota or download the **MyT** app now available on iTunes and Android.

Toyota Accessories
Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. Also, because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability.

For more information visit toyota.co.uk/owners/parts-accessories/parts

Toyota Roadside Assistance
When you buy a Toyota you will automatically receive 12 months' AA Roadside Assistance in the UK and Europe, free of charge; after the first year the cost of Toyota Roadside Assistance is £7 per month when paid by monthly Direct Debit, £72 per annum if paid by annual Direct Debit or £76 per annum when paid by all other payment methods.*

For full terms and conditions please visit toyota.co.uk/roadsideterms

Corrosion Cover
The 12-year unlimited mileage cover protects against rust perforation affecting sheet metal body panels as a result of a manufacturing fault. This warranty can also be transferred to any future owner throughout the 12-year period.

Rust and Paint Cover
The 3-year unlimited mileage cover protects against defects and surface rust as a result of a manufacturing fault.

Toyota Business Centre
Our Toyota Business Centre network promise you same-day access to a business manager or dedicated sales executive. With business offers and interactive wholelife cost modelling tools which consider emissions, fuel economy, servicing, insurance and residual value data, our advisers can accurately compare tax costs against any competitor. Whenever servicing is due, we can offer fixed-price servicing, free local vehicle collection and delivery (with wash and vac).

Special offers, fixed-price fleet servicing, specialist fleet insurance, business daily hire, Toyota Fleet Financial Services, extended test drives and a dedicated Business Centre Network are just some of the services business customers can expect from Toyota.

For more information visit toyota.co.uk/business-customers

Toyota Motor Insurance
Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Flexible Finance from Toyota Financial Services
All our plans offer easy budgeting and peace of mind and **AccessToyota** brings these benefits together in one flexible package.

Toyota Financial Services, Great Burgh, Burgh Heath, Epsom, Surrey, KT18 5UZ.

Finance subject to status to over 18s only. Indemnities may be required. Terms and conditions apply.

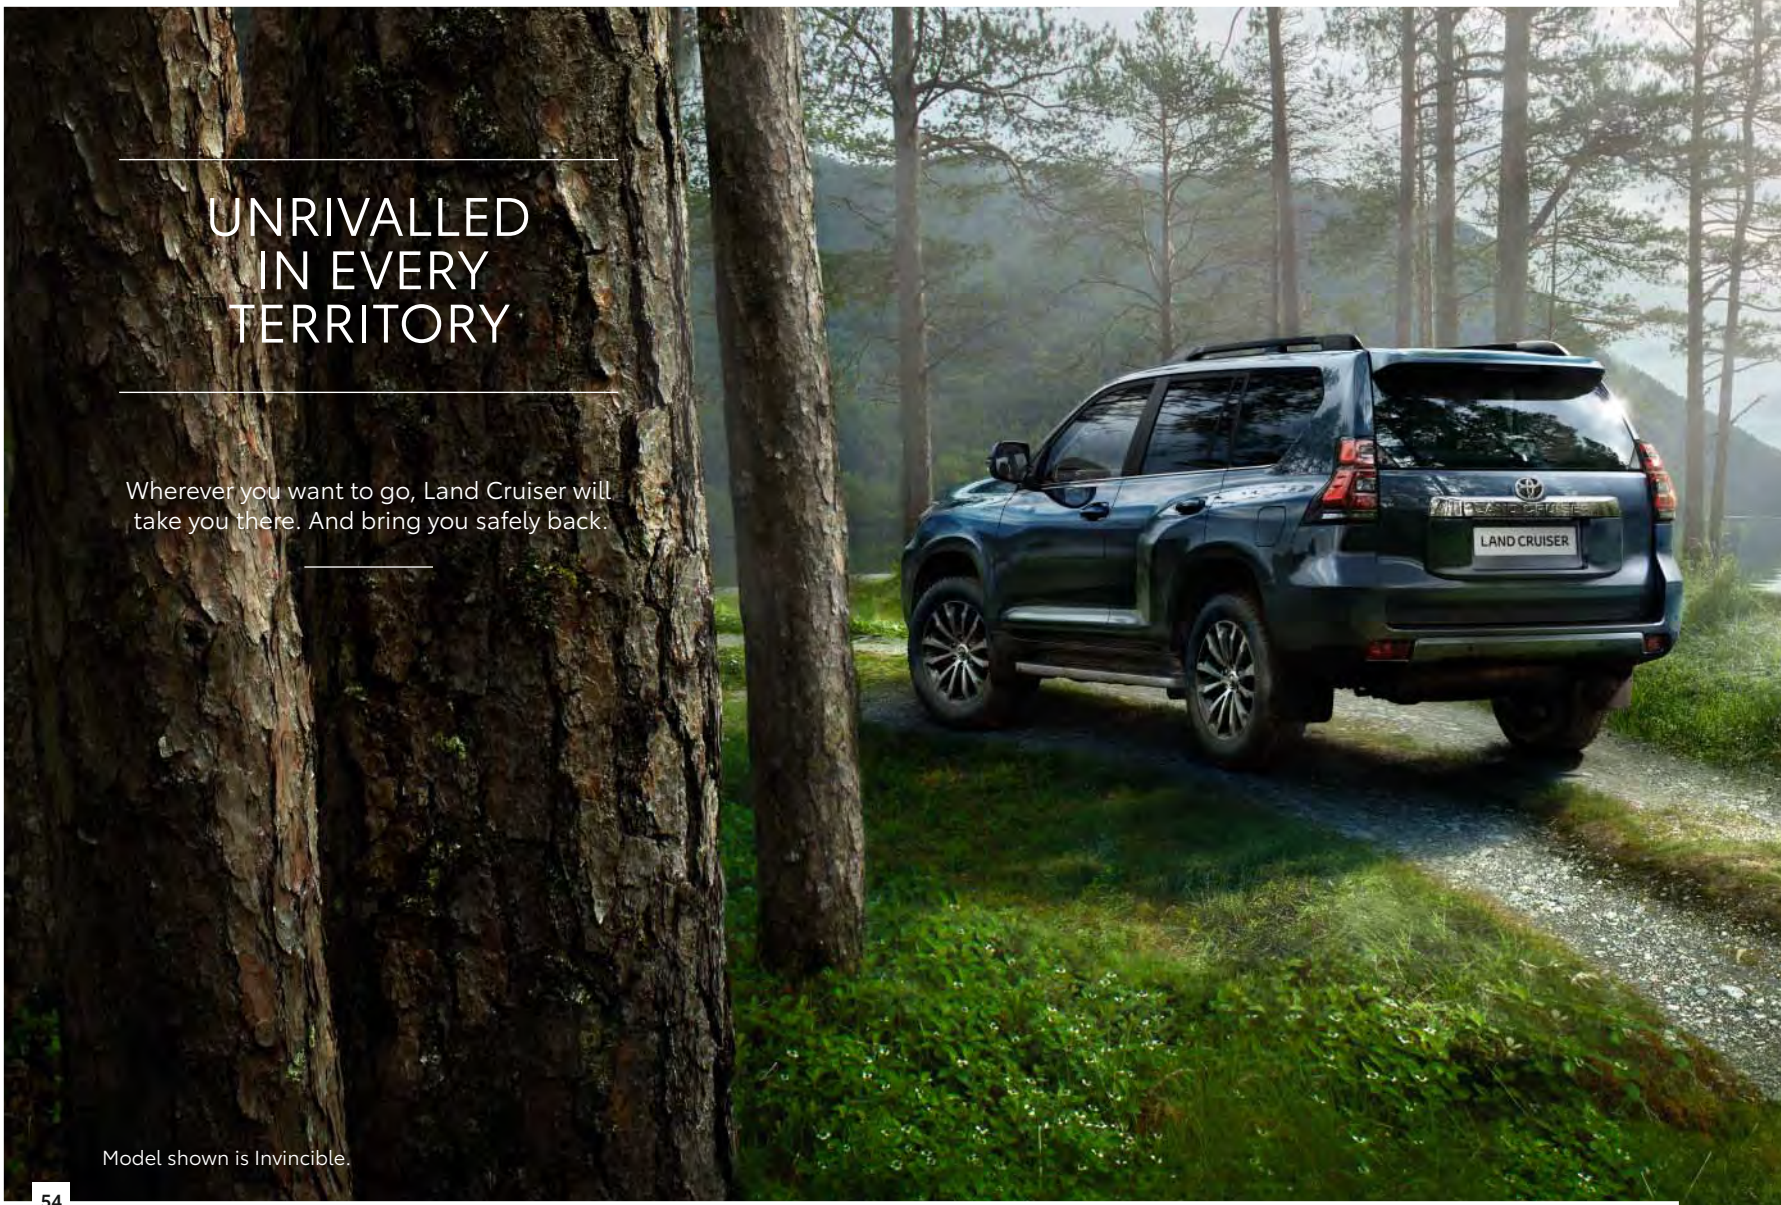

TFS is authorised and regulated by the Financial Conduct Authority.

UNRIVALLED IN EVERY TERRITORY

Wherever you want to go, Land Cruiser will take you there. And bring you safely back.

Model shown is Invincible.

GO. ANYWHERE.

www.toyota.co.uk/Landcruiser

While every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. For the latest specification and availability, we ask that you contact your local Toyota Centre. Vehicle body colours may differ slightly from the printed images in this brochure.

Quoted mpg and CO_2: Figures are provided for comparability purposes; only compare fuel consumption and CO_2 figures with other cars tested to the same technical procedures. These figures may not reflect real-life driving results. Fuel consumption and CO_2 produced varies significantly depending on a number of factors, including the accessories fitted (post-registration), driving style, conditions, speed and vehicle load.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP). All mpg and CO_2 figures quoted are full WLTP figures.

The official CO_2 figures for vehicles changed as from 1 April 2020, due to a change in the official method of calculation. CO_2 figures are used in the calculation of Vehicle Excise Duty (car tax) for new cars during their first year of registration. As a result, all CO_2 figures, car tax and 'on the road' prices for new vehicles, which were provided or displayed prior to 1 April 2020, may now have changed for vehicles which were not registered before that date. These dates may change, please visit www.vehicle-certification-agency.gov.uk/fcb/wltp.asp for the latest information.

Please contact your local Toyota Centre for further information.

The use of the term 'Toyota Accessories' should not be taken to imply that the products on the accessory pages are actually manufactured by the Toyota Motor Corporation or Toyota (GB) PLC. Toyota (GB) PLC is continually updating and changing specifications of accessories and reserves the right to do so at any time without prior notice.
